

WELDON

Technologies, Inc.

To Whom It May Concern:

It is a privilege to offer a recommendation of WildFire Manufacturing to you. Jeff Cook has successfully introduced the Weldon product line to the off-road fire industry in the Indiana region.

On behalf of Weldon Technologies, we are proud to be affiliated with such a hard working, honest company and feel confident that they will succeed in whatever ventures they take on.

Please advise if I can provide additional information.

Sincerely,

Tricia Epstein
