Subject:

Jeff Cook's "Silly Willy"

Jeff Cook's 1952 Jeep Willys Firetruck, "Silly Willy" was one of ISCA's favorite show vehicles during our 2004 show season. This was the first season in our shows for this entry and it won Best of its category at every show it was entered in. That is a very impressive record for any vehicle.

The outstanding workmanship and detail put forth in building this '52 Willys is overwhelming.

Jeff Cook was voted by his peers as the Sportsman of the Year in 2004. We have over 10,000 members in the ISCA, so again, this is quite a feat especially for being a new member. Jeff is a very personable individual to work with. He is always on time for our shows, his equipment is always top-notch and he is always willing to assist other car members if they need help with anything

I personally believe if any company is considering a project with Jeff, they would be very pleased with the complete package.
