To Whom It May Concern:

When we decided to build a monster style 01 F-250 4X4 Ford Image Vehicle for the 01 SEMA show we approached Jeff Cook of Wildfire mfg/ War Wagon Racing. Jeff came highly recommended from other SEMA manufacturers and magazine editors. We dropped off a nearly stock 2 wheel drive truck and about 5 weeks later picked up a total custom tube framed, air bagged and four linked 4 wheel drive "monster truck". The truck was a huge success in our 01 SEMA booth and made the March 02 cover of SEMA news and the April 02 cover of Off-Road Magazine. I have the greatest respect for the engineering and fabricating skills of Jeff and his employees.

Thank You
Terry DeLong
